Subject: *Claims against the Apes Hill Club Homeowners Association ("HOA"), Apes Hill (Barbados) ("Controlling Member"), the current Directors of the HOA appointed by Controlling Member, and Garden Wall Villa Association*

Dear Fellow Members of the HOA:

I am pleased to report that at a hearing held on 2 April 2025, Justice Bryan Weekes of the High Court delivered his decision on the Claimants' applications for specific disclosure and a trial of preliminary issues.

The application for specific disclosure was granted in part and is contained in a draft order that is now being finalized. Once the final order is received by me, it will be sent to you. The Claimants' application requesting a trial of preliminary issues was denied. The Judge was of the view that the matter was now ready for a full trial and did not require the issues to be bifurcated. The Judge scheduled five expedited trial dates from 13 October 2025 to 17 October 2025.

Yours faithfully,

Paul L Lamb

President

Apes Hill Benevolent Society, Inc
